

Crescent Beach Photography Club

Information for prospective members

Meetings are held at Camp Alexandra, 2916 McBride Avenue, Crescent Beach. Meetings run 7:30 pm 'til approximately 9:45- 10:00 pm.

The club meets on the 1st, 3rd, and 5th Wednesday of each month from September to May. The exception to this would be December when the camp is not available to us over the Christmas season. We also meet on the 4th Wednesday for a workshop on various aspects of photography.

At the present time our fees are \$40.00 single and \$55.00 family for the full year September to August. While we do not meet during June, July, and August there is a possibility of a summer outing or photographic challenge to be submitted and shown when the club meets in September.

People joining after January 1st will see a slight reduction in fees with further reductions as the year winds down. Anyone wishing to join does not have to wait until the start of the club year.

The club is open to all interested photographers from beginners to advanced as well as professionals should they wish to join. The current membership includes members at all levels.

One of the main aims of the club is to assist all photographers in improving their photographic skills. The workshops accomplish that to a certain degree. Club competitions, both in-house and with other local and national clubs, help to hone those skills.

There are many excellent photographers within our membership and they all are available to answer questions, offer suggestions, and be of assistance should other members require.

Any person expressing an interest in joining the club is most welcome to attend a couple of meetings and/or workshops. After attending a couple of meetings it is expected that the person will join us providing, of course, that the clubs meets their expectations.
